GREENCOINX LAUNCHES GERMAN VERSION OF WEBSITES

Toronto, Ontario, June 2, 2016 – GreenCoinX Inc, developers of the world's first and only cryptocurrency requiring user identification, announces the launch of the German version of all the websites in the GreenCoinX ecosystem. The German versions of the GreenCoinX ecosystem comprise of:

www.GreenCoinX.com The world's first and only cryptocurrency requiring user identification

www.XGCwallet.org A free online wallet for GreenCoinX users

www.KYCglobal.net A free "Know Your Customer" online identification processor for GreenCoinX users

www.SiiCrypto.com A no-commission, secure, online exchange specializing in GreenCoinX trading

The German versions can be accessed by clicking on the "Deutsch" link on each website, upon which the German version is displayed. The addition of these German versions enhances the user experience for German-speaking audiences.

"The launch of these improved websites enables us to better serve our German customers who wish to take advantage of a cryptocurrency ecosystem that represents the future of digital payments." said Danny Wettreich, CEO.

About GreenCoinX

GreenCoinX Inc is the developer of GreenCoinX (cryptocurrency symbol XGC) the world's first cryptocurrency that requires user identification. GreenCoinX meets the same "Know Your Customer" identification standards as the banking community, and makes the promise of cryptocurrency a reality by alleviating concerns that crooks and terrorists can use cryptocurrency to hide their activities.
